

Fig. 1 Overall Scope: Statutory Plan × Announcement × Evidence

Base redrawn schematically from the statutory plan maps; areas per plan text

Evidence chain (statutory → derived → schematic)

Statutory (high confidence)

- Plan area 16.7 km², 9 blocks (Art. 2)
- Floor area ≤ 24.08M sqm (Arts. 7/13)
- Pop 364k · Jobs 397k (Art. 7)
- 75 zones · 6 height classes (Arts. 12/16)
- 13 immovable heritage sites (Art. 26)

Announced (medium)

- Overall design area ~11.4 km² (provisional)
- 3 key areas 368.4 ha (192.1+104.3+72.0)
- Study area 43.6 km² covers plan 16.7 km²

Schematic recalc (low, to be redone)

- Green 12.3% · public space 7.3%
- Footprint 311k sqm (scaffold geometry)
- All layers recalc after official release

Fig. 2 Spatial Structure: One Belt, One Axis, Two Centers, Nodes (Art. 9)

Structure redrawn schematically from the statutory spatial-structure map

Fig. 4 Mobility × Blue-Green × Fold Nodes (Arts. 17/27/29/30/52)

Water/greenways redrawn from statutory blue-green maps; fold nodes at real Art. 26 heritage positions; purple dashed = five E-W landscape axes of the statutory six-axis structure

Fig. 3 Three Key Detailed-Design Areas (announced 368.4 ha, provisional)

Key areas are provisional polygons per announcement; positions per official release

Fold Jingzhang · Fold-Node Scenes

Fig. 5 Core Metrics Recalculation & Confidence Grading

Bar length = log10(value)+2 for visual grading only; labels carry true values.
